ABSTRACT:

A **lead free**, cadmium **free tin** and **tin**/antimony based **solder** alloy having a wide melting range for joining **copper** tubes and brass pipe and fittings. The non-toxic **tin** based **solder** composition has a range of 92.5-96.9% **tin**, 3.0-5.0% **copper**, 0.1-2.0% nickel and 0.0-5.0% **silver**. The non-toxic **tin**/antimony based **solder** composition has a range of 87.0-92.9% **tin**, 4.0-6.0% antimony, 3.0-5.0% **copper**, 0.0-2.0% nickel and 0.0-0.5% **silver** and is especially suited for plumbing applications having tight loose fitting **solder** joints which are exposed to potable water.
